Worked example — a failing cut and its fixes

A learner's 20-second bar scene scored FAIL on three parameters:

Issue	Cause	Fix applied	Result
The orange case turns black in shot 4	prop not referenced in shot 4	Genjutsu Replace Object with @prop_suitcase image	PASS
Exported at 480p	Draft sent to export	finalised the Draft at 1080p	PASS
Only 16:9	no vertical plan	Reframe to 9:16, captions moved up	PASS

Order of work: cheapest fixes first, then re-score with the same checklist.
